were conducted by the Rev. J. B. Adams of the Methodist church and the songs were sung by Mesdames Fannie Walker, J. H. Ornie, Miss Nellie Sutherland, Messrs, Geo. M. By Crider and C. S. Nunn.

In bis prayer Bro. Adams touchingly asked for Divine aid and comfort for the sorrowing ones. His talk was eloquent and a beantiful tribute to the stainless character and life of the deceased. The text was John 13-7-"What I do thou know. est not now, but thou shalt know hereafter." The preacher stated that, looking at it from the human view-Moore, the second son of point, we could not understand why Ir. and Mrs. A. C. Marion in a Helly Contested Battle at Maxwell Park.

Cooperrider Struck out Twenty men Jones, p................... 0 0 0 And Alloowed But One Hit.

#### COMPLETE WALK-OVER FOR MARION

Saturday afternoon's game was a 2, off Jones 1, of Atkins 1.

Various reports bave been circucomplete walk-over for Marion, the Struck out; by Cooperrider 20, by lated in regard to typhoid fever in Indians being shut out with but one Jones 5, by Hayes 1 by Atkins 4. reached first base, and one of these !! got as far as third, hut died there. the red-skins simply had not the least Atkins 4 in 3 innings. chance against him. His pitching Passed halls; Young, Perryman. and the field work behind him would have won against almost any team. Twenty men fanned, Perryman put one out by catching a foul fly, sime, I hour and 45 minutes. five were caught at first base, and Guess retired the other by holding on to a line drive. One single to center, two bases on balls, and Marion's lone error put fonr men on bases, but whenever they were there, July 22, (today). Cooperridar was simply invincible to the batter. In the second inning, two bases on balls put men on first and second, and a passed ball adnobody was out, and it begun to look as if the Indians would score, but Cooperrider fanned the next three men, and the last hope of the ('hiéasha's perished.

Jones, the first pitcher put up by the Indians, proved good. Marion could do nothing with him until the fifth, when Cooperrider opened up with Marion's first hit; a base on balls to Cannan put him on second, Dixon sacrificed him to third, and he came home on Rochesters infield bit. Cannan secred a moment later or a passed ball, making more than enough to win. Hayes then relieved Jones, and Marion made no more that inning. Atkins went in pitch in the sixth, and did well. Marion had three on bases and nobody out in the sixth, but Atkins struck out three. Marion scored one in the seventh on an error, a passed ball and two hits.

This is Cooperriders fourth game pitched for Marion, and fourth vietory, the last three being shut-outs; eight hits have been made off him in the four games, an average of two to the game. During the same games, Marion has made thirty-five hits. and only eight errors. Such pitching with that kind of batting and support from an amateur team, will win nearly every time. Marion is certainly putting up a stiff game, with Kraft and Cooperrider pitching, and the boys backing them up in the way they are doing. Besides being an extra good pitcher, Kraft plays a star game at first, and his base-running is a revelation to some , of our friends; his continual talking during an inning is a great bracer for the team, as well as being entertaining for the crowd. Those teams who based their hopes of defeating Marion on the fact that Paul Gossage is out of the game are certainly being disappointed. We may lose some games yet, but the teams that do defeat the boys are going to have to play major league ball to do it.

Princeton won both games of ball from Marion this week., Tuesday the score was 6 to 3, and yesterday our home team was shut out, while Princeton scored 3. So Princeton is wame on us with even shut quts. we are very proud of our hoys notwithstanding they were defeated in both of these hotly contested games. Both were good games and that both are fast teams there is no doubt and with the best of feeling we will say Let cach team have its picked bat tery home boys for the other positions and see who has the best team If it be true the Princeton played but four or five of her regular team there is little for her to exult over.

### GREAT EXAGERATION.

Of Typhoid Fever in Marion AS Shown By Following Article-

Dr. T. A. Frazer Gives Advice to The Citizens of The Town-

Various reports bave been circu- ber. Marion, and Dame Rumor has reperted anywhere from twenty-five to one hundred cases of this disease in our midst. I'hese roports have been circulated far and wide, and have done our community great injustice and injury. People of our own town bave been principally responsible for these false reports. They take up mere rumor and report it as facts, when they could easily investigate this matter, as any of our physicians would give them the facts in regard to this disease.

It has also been reported that epidemics of other diseases have been present in the community. It is true we have had a great deal of sickness. At least 50 per cent of this sickness should have been prevented. I have made a careful investigation of the situation, consulted every physician in our city, and find that we have had a total of twelve cases of typhoid fever in and around town this year. It is, however, a reproach to any community to have this disease, as it originates in filth and is easily prevented. If every person would work for their own good and the good the community, No persou ever has typhoid fever unless they get the germs into the alimentary canal, and these germs must come from some previous case, where the discharges have not been properly disinfected.

The mouth is the port of entrance for typhoid germs and they enter either with our food or drink. When our water supply becomes contaminated with these filthy little "bugs," we drink then, and therefore, become infected with the disease. If all drinking water was boild it would obviate this course of danger. Our food may become contaminated by contact with the common house fly, which is a scavenger, and the most filtby place he can find is his "baven of rest." Then he comes to our kitchens and dining rooms with bis feet and legs teeming with the various disease germs, and deposits them on our food. This source of danger can only be overcome by proper screening, Many other diseases orignate from filth, and, if we would keep our premises serupulously clean, be careful what you cat and drink, we could prevent at least 50 per cent of the usual summer sickness, save much suffering and many valuable T. #### Hun. John L. Grayot.

Elsewhere in these columns will be found the announcement of the Hon. John L. Grayot as a candidate for the Democratic nomination for reelection as Commonwealth's Attorney in the Fourth judicial district. This gives pleasure to the writer and will to the thousands of Democratic hosts who have known him since boyhood and who have honored him heretofore with their votes and their confidence and who will testify at the poles that he has been loyal and true to his trusts in all the walks of life. Mr. Grayot was born and reared at Smithland and makes his home there. He attended school here and ever since those happy days has held as warin place in the hearts of Marion and Crittenden county as his home county and people could possibly entertain for him.

Mr. Grayot is one of most conscientious and painstaking men in official life. He is alert for every point against a crimial, but his warm heart and generous nature would revolt at any injustice done an inocent man. That he is terror to evil doers, is one of the strongest reasons why the people are going to endorse him and keep him where he is.

### Annual Home Coming Day.

A perfect day, and a fine audience assembled at the Cumberland Presbyterian church last Sunday to enjoy the annual Rally Day of this church. Among those from atroad were noticed, Mr. and Mrs. Arthur Williams, of Carrsville, Mr. and Mrs. Albert Lamb and Miss Jewel, of Clay, Miss Mendozen Deboe, of Blackford and Hon. J. S. Durham, of Nebo.

The choir rendered some good music with fine enthusiasm; and altogether the services were not only deeply spiritual and impressive, hut pronounced by all very enjoyable. Mr. Biddle preached again on Monday and Tuesday nights.

We are authorized to announce JUDGE J. F. GORDON as a candidate for re-election to the office of Circuit Judge of the Fourth Judicial District of Kentucky, subject to the action of the Democratic party.

THE CRITTENDEN RECORD-PRESS goes to its 4,000 readers this week under a change of ownership and and under new editorial management, N. E. Calmes having leased the plant from S. M. Jenkins for the term of 17 months, with the privilege and expectation of buying at any time during this period. The new Editor, while a stranger to many of you, comes from the good old town of Sturgis, in the proud and rich county of Union to a town and coun ty inhabited by as true and loyal citizens as ean be found in the Commonwealth of the time-honored State of Kentucky, to east his lot with them for ever and aye. The aim of the Editor will be to devote his whole time and energy in an effort to make the RECORD-PRESS second to no a l, to protect the interests of the people of Crittenden county. polities will be Democratic and yet realizing the fact that the good Republicans of the proud old county of ('rittenden, have no party organ, its columns will be open to them for a tair deal. In no instance will an article from either side be accepted that is calculated to stir up strife or 'a' "nt clean. If a man gets the idea in his head that he is bound to raise -ll, let him do so in his own neighborhood, at home and not through the columns of the RECORD. PRESS. In leaving my nativo county, Union, where I have friends I love with the love that Jonathan had for David and where my sweet mother sleeps the long sleep in the light of the same sun that warms and makes bright and glad the hearts of Gods people every where, I do so with the full knowledge that I am casting my lot with as proud and loyal people as live under the banner of Old Glory and to this people I take off my hat. In easting my eye about for a good town I found none that suited me so well as Marion, and here, for weal or woe I east my lot with her proud people and to stand loyal to them and the eitizenship of Crittenden in their struggle

### THE BOYCOTT.

for right and supremacy.

THE large number of deaths among babies in the recent severely warm weather has been altogether out of proportion to the number in previous years from the same cause. The reason given by one doctor, is that the babies have not been taken out enough in the air. In his own practiee he said he knew of three babies whose lives could have been saved if they had been taken out for rides on the street cars.

five or six preferred runs-not that one speke missing. they wanted them so much for themselves, but because they didn't want other employes of the company to have them-the parents of these babies would not take them out riding. These three instances are from the observation of one physician. There may have been many others.

The loss of these three babies.was a pretty severe sacrifice to sympathy for men who refused to return to or six crews of old employes from the five or six preferred runs they had. Wasn't it?

New, the dangerous period of the summer is yet to come—the last half of July and the month of August. How many more babies are to be saerificed to this boycott which can never result in anything. It can never give these men the five or six preferred runs. Change the rosy checks of every cooing, dimpled baby in this eity to fhe deathly pallor and the drawn and wasted: look and nothing would come of it. Why then keep up this awful, useless sacrifice?

It is on the poor people that the boycott rests heavily-not upon those with automobiles, and horses and buggies. And it is on the women and babies-not the strong men. the sacrifice worth while?

The strike, as a strike, is at an end. All that remains is the boyeott. Any talk of "settling the strike" is childish. As was said in The Courier Wednesday:

Any further talk of "settling the strike" should be put in its true light as misehievous. No good or honest purpose can be behind any such suggestion. It can only be with the object of offering false hopes or o fomenting trouble.

It is an old saying that if the stomach is sound the whole body is safe, because so much depends upon the proper working of the stomach. Many persons find themselves with a disorder of the stomach which produces dyspepsia or a peculiar state of

order of the stomach which produces dyspepsia or a peculiar state of biliousness.

If you suffer from both stomach trouble and constipation you are on the way to a very serious disease. From just such conditions come appendicitis, rheumatism, skin diseases and similar disorders, because the waste matter that should have been dispelied from the system through the bowels has found its way into the blood and vitiated it. What is needed at this point is not simply a violent cathartic tablet or sait, which usually does more harm than good, but a gentle laxative tonic like Dr. Caldweil's Syrup Pepsin, which people have been using for these ailments for nearly a quarter of a century. It cured J. C. Lanham, of Warrensburg, Mo., of stomach trouble of long standing, also William Voli, of 903 Eliisson St., Louisville, Ky., who had the trouble for fifteen years.

However, if you have stomach trouble you want to know from personal experience what Dr. Caidweil's Syrup Pepsin, will do for you. If so, send your name to the doctor and a free trial bottle will be sent you. You are urged to send for the free bottle, as the results from it will be the best recommendation of Dr. Caldwell's Syrup Pepsin. Then you will do as over two militon people did last year—go to your druggist and buy a regular bottle at 50 cents or \$1, according to the size you prefer. We could mention hundreds and hundreds of families who are never without it. You can never tell when some member of the family will need a laxative, and then no time should be lost taking Dr. Caldwell's Syrup Pepsin.

If there is anything about your ailment that you don't

If there is anything about understand, or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 500 Caldwell bldg.,

#### Education.

About the sixth century, B. C., the commonwealth, of Athens, the leading city of the Ionians, elected six months the following described Solow, as chief ruler and bestowed upon him unlimited power and autherity. He gave to Athens a con stitution and cade of laws, political, religious, social and educational. These were very different from those, Lyeurgus, gave to Sparta.

Especially different was the system of education provided for. It differed in aim, and therefore it differed in curriculem methods of instruction, support and attendance.

But the meaning of education today does not mean to prepare men for war but for civil life. It net only means to develope the mind, but the heart, muscle and willpower as well.

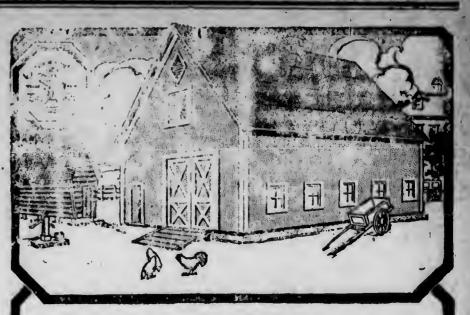

Kentneky ranks about thirty-seven

in education and a great part of our people live in the country, and the question of the education which the country boy and glrl should receive is one of highest importance to the commonwealth. And it is a problem most likely be over looked. When educators assemble, it is the college man and the city teacher who are at the front. The needs of the city schools and the proper method for their management are more or less prominent before the public. The country school and the country school teacher, are out of sight, and fergotten. New let us consider what are the needs of these country boys and girls. They have a good physical start in their country outof door life, but here comes the pull, where shall they get the ideals of life, the principles of conduct, the inspiration and motives of achievement that shall fit them to make the from town, they may be sheltered ten dollar bill to you from many temptations and evils of city life, But, they are in special need of the awakening voice and the guiding hand that shall put them in step with the progressive force of the world and make them share in the best elements of our civilization. Could we but see every country home beautified in its surroundings, its humble hearth, graced by a shelf of books. It would take this to make a man fully competent to manage the Homer Morrel et al Dft. affairs of school.
